1. Welcome

Thank you for choosing EVO Payments. We value your business and are fully committed to making card acceptance easy for you and your customers. In this guide you will find information about our online reporting portal - Business Resource Centre (BRC) - that will help you manage the reporting and admin side of your card payments.

2. Accessing the BRC

In order to access your information via the BRC the first step is to create a Username and Password. On successfully signing up to EVO Payments UK you will receive a welcome email from our customer support team. This email will provide details of your Customer Number. You need your Customer Number and the last 4 digits of your Bank Account (provided on your merchant application) in order to create an account on the BRC

Welcome and thank you for choosing EVO Payments International.
One of the many benefits of choosing EVO Payments International for your payment acceptance needs is our Business Resource Centre (BRC). This is your online portal that holds all the necessary information to your account, including daily transaction details, electronic statements and monthly account billing. You can access the BRC portal through a link from our web site
Please visit the portal right away to set up your customer profile and to directly add the link to your bookmarks for easy access: <https://portal.evopayments.eu/business>
To login in for the first time click on the "Create an account" link and enter your account number: GB..... and the last 4 digits of the Bank Account provided on your Payment Acceptance Agreement.
In order to protect your business from the threat of card fraud each EVO Payments International customer may be requested to attest, or certify, their PCI DSS compliance on an annual basis. PCI DSS is an information security standard for all businesses that handle credit and debit cards from the major card schemes. Annual certification is a simple process that involves 3 elements to be completed via our PCI DSS web portal:
1. Complete your PCI profile
2. Complete self-assessment questionnaire
3. Attest your compliance
The set up of your account and the way that you accept cards for your business will be assessed in order to determine your PCI DSS obligations. If you are required to actively participate in the programme, you will be contacted via email in the coming weeks to introduce you to our 'Simple PCI DSS' program and web portal. The service is run in conjunction with Sysnet Global Solutions. Should you experience any difficulty with any aspect of the PCI process please do not hesitate to contact us.
We are looking forward to supporting your business!
Yours sincerely,
Customer Support
